50450, Kuala Lumpur

Dear Sir / Madam,

Industrial Training Programme of the Faculty of Computing and Information Technology (From 26/01/26 to 12/07/26)

We would like to take this opportunity to thank your esteemed organisation for offering an internship to our student. The details of the student and the TAR UMT supervisor are as follows:

No.	Student Name	Gender	IC Number	University Supervisor Name	Supervisor Email
1	LING JIT XUAN	M	040319-08-1057	PEH GUAN SOON	pehgs@tarc.edu.my

Please do not hesitate to contact us, if there is any error with the above. For more information and guidelines regarding industrial training, you can refer to our Guidelines for Companies document.

We would like to draw your attention particularly on issues pertaining to leave application by our students. Please allow students who need to sit for examinations to take leave. The examination period is from **04/08/2026 to 16/08/2026**. Except for the purpose of sitting for the examination, the students are not allowed to take leave unless with valid reasons such as medical leave, wedding or funeral of immediate family members (compassionate leave) or attending to University's official functions.

In accordance with our TAR UMT examination policies and rules, only students with SG (Good Status) or SP (Probation Status) will be eligible or qualify to register for Industrial Training. However, in the event that the student's examination performance status has dropped to SW (Warning Status) or SF (Final Warning) status, the students involved would be disqualified to register for Industrial Training and if they have already started their internship with your company, they would have to be withdrawn from continuing the internship. Any inconvenience caused will be much regretted.

For all issues pertaining to industrial training which require our attention or any correspondence, kindly email to focs_itp@tarc.edu.my.

Thank you.

Ms Tan Li Peng
Associate Dean
Department of Information and Communication Technology
Faculty of Computing and Information Technology
Tunku Abdul Rahman University of Management and Technology

Notes to the Company Supervisor

Issues with student performance and discipline

1. When facing work performance issues or any offence committed by them, you may raise the Warning Letter to Interns. Companies are NOT encouraged to dismiss the students entirely from their internship without having given them a second chance to improve themselves, and without having notified TAR UMT of your intentions to dismiss.
2. After filling up the Warning Letter to Interns, it should be passed to the students for their acknowledgement and signature. Companies are encouraged to provide counselling to students to let them know what wrong-doing they have done and how to improve themselves in order to meet the expectations of the company.
3. The Warning Letter should be scanned and emailed to the TAR UMT Industrial Training Committee at focs_itp@tarc.edu.my.

Student final evaluation

1. You shall receive the “Company Supervisor Evaluation on Student Trainee” form together with this letter.
2. You are required to fill up this evaluation form by evaluating and rating the student(s) based on the given criteria and scale on the form.
3. The total scores awarded to the student(s) must be kept confidential and should NOT be disclosed to the student(s).
4. You shall scan the form and email to the student’s TAR UMT Supervisor as stated on the previous page in this letter by **10/06/2026** .

Student leave application and approval

Take note of the following condition(s) when approving the student leave application:

1. Students are not allowed to take leave unless with valid reasons such as medical leave, wedding or funeral of immediate family members or attending to TAR UMT official functions e.g. sitting for examinations.
2. Students cannot take more than SIX days leave (paid or unpaid) in total. Any student who has taken more than SIX days leave with or without valid reasons during the internship period will be considered as NOT fulfilling the internship requirements and therefore, failing the internship. The students will be required to fully repeat the internship in the following year.

For more information and guidelines regarding industrial training, you can refer to our Guidelines for Companies document.
